**2018 Practice Information Disclosure Sheet
For Patients and Prospective Patients**

New York State requires medical practices to disclose to current and prospective patients information regarding health plan participation, hospital affiliations, referral providers, and the availability of charge data for non-emergency out of network services, if applicable. Below is the required information, which is available on our web site at www.nephrologysyracuse.com or via hard copy if needed. Nephrology Associates of Syracuse, PC is a provider for Medicare and most major insurance plans. Questions regarding insurance coverage and benefits should be directed to your insurance company. If you have questions regarding billing or which insurance plans we accept, please call our Billing Office at 315-478-3311.

Disclosure Prior to Non-Emergency Services being Provided to Patients and Prospective Patients with insurance coverage from plans that we do NOT participate with:

Patients and prospective patients with insurance coverage from plans that we do NOT participate with – please be advised that before non-emergency services are provided, the amount you will be billed is available upon request. If you submit such a request, we will disclose in writing the amount or estimated amount that will be billed for services provided or

anticipated to be provided, absent unforeseen medical circumstances that may arise when services are provided.

Please note that as many insurance contracts contain provisions do not permit the sharing of contracted rates, we will disclose our charges. Please note that the amount a patient and/or his/her insurance company pay will generally be less than charges, and those rates apply even if you, as a patient, have not yet met your deductible.

Please call the Customer Service Department of your insurance company if you have any questions related to participating providers in your health plan.

Laboratory Services

Nephrology Associates of Syracuse, PC offers in-house laboratory services. There are some lab tests which are not able to be performed here and these are sent directly to Lab Alliance, our reference laboratory. There are some insurance plans which do not allow payment for select lab tests to be performed in a physician office setting, and thus, these lab tests must be sent outside to Lab Alliance in order for lab tests to be covered. It is your responsibility to contact your insurance plan for specific coverage questions.

Referral Providers

On occasion, your provider may refer you to another provider, or may recommend that you have additional tests or services. Below is a list of providers that you may be referred to along with their address and contact information. Prior to having services rendered, it is your responsibility to contact your insurance plan or these referral providers directly, to confirm that they participate with your insurance plan. Please note that unforeseen medical issues may arise which may necessitate referring you to another provider that is not listed below, based on your individual medical condition. We have listed the main location for each provider group and would encourage you to contact them directly to determine the most convenient location for your individual needs.
